

Are your students currently home due to the COVID-19 pandemic? Kid Power Up videos empower children to stay active, continue learning, and make a difference -- all from the safety of home.

Kid Power gives kids the power to save lives by connecting their everyday activity to real-world impact.

Get Active. Save Lives.

Kid Power is a free, digital platform designed to empower your students. Kids complete short, interactive videos where they **dance, move, play games, and learn**. By getting active, your students unlock lifesaving therapeutic food that Kid Power delivers to severely malnourished children around the globe. They also earn and give digital currency to make a positive impact in their own communities. The more kids move, the more lives they save. They're empowered as their actions make a real-world difference.

Who can get involved?

- Free sign up for educators, parents, or guardians
- Ideal for children in grades K-8

How can you sign up?

- Visit gokidpower.org to **sign up for free**.
- It takes **one minute** to sign up!
- Access a library of videos - from dancing & yoga to lessons integrating social-emotional learning skills.

Since 2015, Kid Power has:

- Reached 900,000 children across the U.S.
- Served schools in 5,000 cities and towns across the U.S.
- Saved the lives of over 100,000 severely malnourished children

Why is this important?

Half of surveyed American kids don't feel empowered to make a difference in their community or the world. One in every four children under five are malnourished. With Kid Power, your students join a community of kids making real-world impact everyday. Additionally, our videos are a great way to get your kids active!

"I love Kid Power because it not only builds a positive community within my classroom, but I see a noticeable difference in my scholars' confidence."

- Ms. Moe

4th Grade Teacher, California
